SERENGETI AND ZANZIBAR EXPLORER

Our “Serengeti and Zanzibar Explorer” tour offers a unique combination of the best of Tanzania’s safari excursions and several days of relaxation on the white sand beaches of the exotic spice island of Zanzibar. Visit some of the richest and most unspoiled wildlife areas in the world, including Lake Manyara National Park, Serengeti National Park, and the Ngorongoro Crater. Visit spice plantations where cloves, cinnamon, nutmeg, vanilla, cardamom and other spices are produced, see the rare red colobus monkey in the Jozani Forest, opt for snorkeling or simply relax on the beach.

WHAT TO EXPECT ON YOUR SAFARI

A typical safari day will include morning and afternoon game drives, traveling in special 4WD vehicles. Each game drive usually lasts 3-4 hours before returning to the safari lodge. There is also extensive wildlife viewing while traveling between one park and another, and these drives usually take 4-6 hours. The vehicles will often split up in the parks to track wildlife separately.

The safari vehicles are spacious and comfortable. Each vehicle is equipped with radio communication to ensure contact with the safari base and other safari vehicles at all times. The passenger and driver compartments are connected to facilitate communication between the guide and guests. Roof hatches enable excellent wildlife viewing and photography. The safari guides are equipped with reference books listing all the local flora and fauna. All vehicles used on the adventure safaris have 9 seats, however the guides will only fill each vehicle with 7 passengers guaranteeing that everyone has a window seat for the best wildlife viewing. The 4WD vehicles can go virtually everywhere, an important feature when you are tracking game, and they add a taste of adventure to your African safari.

FEATURED LECTURES

SERENGETI LION PROJECT

The Serengeti Lion Project's primary goal is to conduct research into the basic biology and conservation of African lions. Their research is concentrated in Serengeti National Park, focusing on the lions living in the southeastern corner of the park, an area consisting largely of the famous Serengeti plains and plains-woodlands transition areas. Their project entails monitoring and maintaining demographic records on every lion in their study area. Additionally, they are conducting lion mane study to research the impact of manes of male lions on mate selection and dominance. A Serengeti Lion Project researcher will speak with our group about their project.

MAASAI CHIEF

Ole Dorop is a Maasai elder and chief who is intent on preserving the pastoral Maasai way of life, its traditions and culture, while at the same time guiding his clan through a world that also benefits from increased access to education and healthcare. Ole Dorop speaks fluent English and delights in giving our groups greater insight into Maasai culture. After a talk on modern Maasai life, Ole Dorop opens up the floor for questions and nothing is off limits! The chief will be accompanied by one or two of his wives who will show us how they create their beautiful Maasai beadwork. An interpreter will be on hand so that the women in the group and Ole Dorop's wives can ask each other "female" questions.

ACCOMMODATIONS

SERENA MOUNTAIN VILLAGE

Hidden in the depths of a tree-shaded coffee plantation just outside of Arusha, the Serena Mountain Village is located among the flowered gardens of the plantation's farm house. The coffee lodge offers wide timbered decks with breath-taking views of nearby Lake Duluti, village-styled room clusters and expertly thatched "Makuti" stemmed roofs. The 46 rooms are decorated with authentic carvings and traditional safari-styled furniture.

LAKE MANYARA SERENA SAFARI LODGE

Located on the Rift Valley wall, the Lake Manyara Serena Safari Lodge has spectacular views of the valley and of Lake Manyara National Park. There is an infinity swimming pool that looks like it overflows the rift wall into the valley. All 67 rooms are spacious and comfortable and have en suite facilities. The concept used here is different from many other safari lodges in that it has created "rondavels" which house the rooms. There are 4 rooms in each rondavel, all of which are very private.

SERENGETI SERENA SAFARI LODGE

The Serengeti Serena Safari Lodge is located in one of the most popular areas of the Serengeti known as Seronera. The 66 rooms in this safari lodge look like Maasai rondavels with an ethnic design outside, while the large comfortable interiors are a blend of African and Western style. Strategically located on a hillside overlooking plains below, there are fantastic views of the animal life passing by, sometimes right outside your window.

NGORONGORO SERENA SAFARI LODGE

The Ngorongoro Serena Safari Lodge is built out of riverbed rocks and is situated on the rim of the crater with spectacular views. The 75 guest rooms are comfortable, and have en suite facilities with a walk-in wardrobe, hair dryer, and a balcony where you can sit and view the action in the crater below.

ZANZIBAR SERENA INN

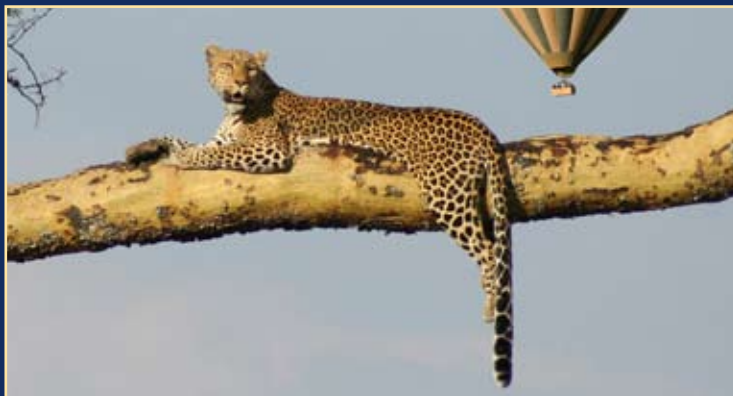

The Zanzibar Serena Inn is the most luxurious and only 4-star hotel in Stone Town. The inn is set in two historic seafront buildings and the interior has a rich Arabic influence intermingled with indigenous influences. The rooms are exceptionally spacious, each with a sea view, mini-bar, television, air conditioner, telephone, en suite facilities, hair dryer, and safe deposit box.

OCEAN PARADISE RESORT

Ocean Paradise Resort is located on the east coast of Zanzibar and set within the unspoiled beauty of an extensive natural palm grove overlooking the azure blue water of the Indian Ocean. The accommodations consist of 100 bungalows decorated in Zanzibari style. Each room is air-conditioned and is equipped with satellite television, radio, telephone, en suite facilities, private terrace, mini-bar, and hair dryer.

SELOUS GAME RESERVE, TANZANIA

Embracing 30,000 square miles of southwestern Tanzania, the Selous Game Reserve is the largest protected wilderness reserve on the continent, three times larger than the Serengeti. The sheer diversity of the landscape — from volcanic hot springs and placid lagoons, to the many channels of the Great Ruaha and Rufiji Rivers that bisect the reserve — makes the Selous a unique area to observe the full array of African wildlife.

MOUNTAIN GORILLAS, RWANDA

Encounter the extraordinary while tracking endangered mountain gorillas, taking in lush landscapes and learning firsthand about the history and cultural heritage of the fascinating country of Rwanda. A highlight will invariably be the days spent tracking mountain gorillas in Parc National des Volcans. In contrast to the 6.7 billion human beings living on our crowded planet, there are only 740 mountain gorillas left in the forgotten forests of central Africa.

MOUNT KILIMANJARO CLIMB, TANZANIA

At 19,340 feet (5,895 meters), Mount Kilimanjaro is Africa's highest peak and the world's highest free-standing mountain. The prices listed on Global Adrenaline, Inc.'s trip documents are subject to change because the information has often been published more than a year in advance. While every effort will be made to carry out the program as planned, the itinerary as described is subject to modification and change by Global Adrenaline. The program cost is based upon current airfares, tariffs, and currency values in effect November 2009. While Global Adrenaline will use its commercially reasonable best skills to maintain the listed price, tour costs are subject to change. If it is necessary to levy a surcharge, notification will be given 60-90 days before departure. If the surcharge results in an increase of more than 10% of the tour cost, a participant may cancel the booking within 14 days of notification of the surcharge and obtain a refund from Global Adrenaline of all deposits and other payments.

Group Sizes

Global Adrenaline, Inc.'s trip prices are based on a group size of 15 full paying trip participants. Should the total number of participants fall below 15, a price surcharge may apply.
